

**“Go Get the Mud Snot!”**

*Fast, easy mixing and rapid yield in fresh water:*

**1 jar for a 300 gal tank**  
**3 jars for a 1,000 gal tank**

Available in  
Clear or **Yellow/Green**

**Hacha Verde Mud Snot** is a multi-functional dry polymer designed to improve drilling efficiency in both horizontal and vertical drilling applications.

- **Superior Binding of Cuttings**
- *Increases lubricity in water and mud*
- **Does not affect drilling fluid viscosity**
- *Reduces rotational torque and pull-back drag*
- **Single pass cutting and pulling**
- *Extends equipment life through reduced wear & tear*
- **Mitigates heat build up in sonde and computer**
- *Environmentally safe – NON-TOXIC to flora & fauna*

**6" Cuttings Slug**

**HACHA VERDE  
MUD SNOT**

**DRILLING FRICTION REDUCER**

Non Hazardous and Environmentally Friendly  
Consult SDS before using Product

**CAUTION:**

Slip Hazard

**TO USE:**

Mix one container of Mud Snot in  
up to 300 gallons of freshwater
